

## **Kohlberg Capital Corporation Announces First Quarter 2011 Financial Results**

NEW YORK, May 6, 2011 (GLOBE NEWSWIRE) -- Kohlberg Capital Corporation (Nasdaq:KCAP) (the "Company") announced its first quarter 2011 financial results.

### **Financial Highlights**

- Net investment income for the three months ended March 31, 2011 was approximately \$5.0 million, or \$0.22 per share as compared to 2.6 million, or \$0.11 per share for the three months ended March 31, 2010.
- The Company declared dividends of \$0.17 per share for the first quarter of 2011.
- Net asset value per share of \$8.64 as of March 31, 2011 as compared to \$8.21 as of December 31, 2010.
- The Company fully repaid its secured borrowing facility on January 31, 2011.
- In March 2011, the Company closed a \$60 million unsecured convertible debt issuance with a five year maturity and fixed rate of 8.75%.
- At March 31, 2011, the fair value of the Company's total assets totaled approximately \$271 million.

"The Company had a busy first quarter with two significant milestones — one that eliminated potential concerns regarding our previous secured credit facility and another that creates longer-term fixed rate financing and the ability to fund investment portfolio growth. As a result of our complete repayment of our secured lending facility at the end of January, any remaining concerns about a further loss of NAV was alleviated when approximately \$73 million of collateral previously securing the Facility was released to us and thus no longer subject to potential forfeiture. In March, we then issued \$60 million of unsecured convertible debt with a five year maturity and fixed rate of 8.75%."

### **Operating Results**

For the three months ended March 31, 2011, the Company reported total investment income of approximately \$7.3 million, compared to approximately \$7.0 million in the prior year period. Investment income from debt securities decreased approximately \$2.8 million, from approximately \$4.8 million in 2010 to approximately \$2.0 million in 2011 due to a reduction in size of our loan portfolio investment balances on which interest is earned. The decrease in assets is primarily due to the sale of assets used to pay off the Company's secured credit facility during the quarter. In addition, investment income from CLO fund securities for the three months ended March 31, 2011 was approximately \$3.4 million as compared to \$2.2 million for the three months ended March 31, 2010. Katonah Debt Advisors, the Company's wholly-owned asset manager, did not pay a cash dividend to the Company during the first quarter although it is anticipated that such distributions will occur during the rest of 2011. Other income recognized in the three months ended March 31, 2011 included a \$2 million payment to settle all outstanding claims in connection with litigation previously initiated by the Company against its lenders for the secured credit facility that was fully repaid in January.

Expenses for the three months ended March 31, 2011 totaled approximately \$2.3 million as compared to approximately \$4.4 million for the same period in 2010. The decrease in expenses is primarily attributed to a decrease in interest expense that is a result of a reduction in average debt outstanding in connection with paying off the Company's secured credit facility. Professional fee expenses for the three months ended March 31, 2011 are higher by approximately \$260,000 relative to the same prior year period primarily due to fees paid to a third party advisor for strategic analysis of debt and equity alternatives as well as increased accounting fees related to our recent issuance of Convertible Senior Notes. Such increase was offset, in part, by reduced legal fees.

Realized losses for the three months ended March 31, 2011 were approximately \$1.8 million, and for the same period in 2010, \$2.3 million. Net investment income for the three months ended March 31, 2011 was approximately \$5.0 million, or \$0.22 per share, compared to approximately \$2.6 million, or \$0.11 per share for the three months ended March 31, 2010.

The net change in unrealized gains for the three months ended March 31, 2011 totaled approximately \$6.4 million, as compared to an unrealized gain of \$1.3 million at March 31, 2010.

### **Investment Portfolio**

Kohlberg Capital Corporation's portfolio fair value was \$194 million as of March 31, 2011. The following table shows the composition of the Company's portfolio by security type at March 31, 2011 as compared to the year ended December 31, 2010:

The Company's loan and bond portfolio (excluding its investment in CLO fund securities, short-term investments and affiliate asset managers discussed further below) as of March 31, 2011 totaled \$88.4 million at fair value, of which 94% are secured loans. The cost of such investments was \$121.3 million, representing a fair value discount to cost of 27% or approximately \$1.44 per outstanding share. As of March 31, 2011, the Company had no exposure to mortgage securities, consumer borrowings or related asset backed securities. The weighted average yield on the Company's income producing loan and bond portfolio at March 31, 2011 was approximately 8.7%.

The portfolio of middle market corporate loan and debt securities at quarter end, representing 45% of the total investment portfolio, was spread across 19 different industries and 28 different entities with an average balance per entity of approximately \$3.2 million. As of March 31, 2011, all but four issuers or approximately 1% of total investments at fair value were current on their debt service obligations.

### Investment in CLO Fund Securities

As of March 31, 2011, the Company's investment at fair value in CLO Fund securities was approximately \$56 million. The underlying assets in each of the CLO funds are generally diversified secured and unsecured corporate debt and do not include any asset backed securities, such as those secured by commercial or residential mortgages. Our two largest CLO fund investments, Katonah X CLO Ltd. and Katonah 2007-1 CLO Ltd., both managed by our wholly-owned asset manager, Katonah Debt Advisors, represented 78% of our investments in CLO fund securities at March 31, 2011, have never suspended distributions since inception and are currently yielding and annualized return of approximately 24% on fair value. One CLO Fund security, not managed by Katonah Debt Advisors, representing a fair value of \$1,000, is not currently providing a dividend payment to the Company.

### Investment in Asset Manager

At March 31, 2011, the Company's investment at fair value in affiliate asset managers, including Katonah Debt Advisors, was approximately \$42 million as compared to approximately \$41 million at December 31, 2010. Katonah Debt Advisors' assets under management at March 31, 2011 totaled approximately \$1.9 billion. Currently, all CLO Funds managed by Katonah Debt Advisors are paying both their senior and subordinated management fees on a current basis.

### Liquidity and Capital Resources

At March 31, 2011, Kohlberg Capital had unrestricted cash and time deposits of approximately \$71 million, total assets of approximately \$271 million and stockholders' equity of \$197 million. The Company's net asset value per common share was \$8.64. As of March 31, 2011, we had approximately \$60 million of outstanding borrowings at a fixed rate of interest of 8.75%, and our asset coverage ratio of total assets to total borrowings was 428%, compliant with the minimum asset coverage level of 200% generally required for a BDC by the 1940 Act.

At December 31, 2010, we had approximately \$87 million of outstanding indebtedness through a secured credit facility. On January 31, 2011, we repaid in full the outstanding balance under this facility. On March 16, 2011, we issued \$55 million in aggregate principal amount of unsecured 8.75% convertible senior notes due 2016 ("Convertible Senior Notes"). On March 23, 2011, pursuant to an over-allotment option, we issued an additional \$5 million of such Convertible Senior Notes for a total of \$60 million in aggregate principal amount.

Subject to prevailing market conditions, we intend to grow our portfolio of assets by raising additional capital, including through additional debt and leverage that may be available to us. As a result, we may seek to enter into additional agreements with other lenders or into other financing arrangements as market conditions permit. Such financing arrangements may include a new secured and/or unsecured credit facility, the issuance of preferred securities or debt guaranteed by the SBA. We also believe that our current cash position, certain loan investments and cash income earned by our investment portfolio are adequate for our current liquidity needs.

## **Dividend**

Generally, the Company seeks to fund dividends to shareholders from current and distributable earnings, primarily from net interest and dividend income generated by its investment portfolio and any distributions from Katonah Debt Advisors. The Company announced a regular quarterly dividend of \$0.17 per share on March 21, 2011. The record date for this dividend was April 8, 2011 and the dividend was paid on April 29, 2011. Tax characteristics of all dividends will be reported to stockholders on form 1099-DIV after the end of the calendar year.

The Company has adopted a dividend reinvestment plan that provides for reinvestment of our dividends on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if we declare a cash dividend, our stockholders who have not "opted out" of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividends. Please contact your broker or other financial intermediary for more information regarding the dividend reinvestment plan.
