(1) A majority of the variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either LIBOR or an alternate Base Rate (commonly based on the Federal Funds Rate or the Prime Rate), which resets semi-annually, quarterly, or monthly. For each such loan, we have provided the weighted average annual stated interest rate in effect at June 30, 2007.

(2) Reflects the fair market value of all existing investments as of June 30, 2007, as determined by our Board of Directors.

(3) Non-U.S. company or principal place of business outside the U.S.

(4) Buildings and real estate relate to real estate ownership, builders, managers and developers and excludes mortgage debt investments and mortgage lenders or originators. As of June 30, 2007, we had no exposure to mortgage securities (residential mortgage bonds, commercial mortgage backed securities, or related asset backed securities), companies providing mortgage lending or emerging markets investments either directly or through our investments in CDO funds.

(5) The aggregate cost of investments for federal income tax purposes is approximately $341 million. The aggregate gross unrealized appreciation is approximately $27 million and the aggregate gross unrealized depreciation is approximately $3 million.

(6) Pledged as collateral for the secured revolving credit facility (see Note 6 to the financial statements).

(1) A majority of the variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either LIBOR or an alternate Base Rate (commonly based on the Federal Funds Rate or the Prime Rate), which reset semi-annually , quarterly , or monthly. For each such loan, we have provided the weighted average annual stated interest rate in effect at December 31, 2006.

(2) Reflects the fair market value of all existing investments as of December 31, 2006, as determined by our Board of Directors.

(3) Non-U.S. company or principal place of business outside the U.S.

(4) Buildings and real estate relate to real estate ownership, builders, managers and developers and excludes mortgage debt investments and mortgage lenders or originators. As of December 31, 2006, we had no exposure to mortgage securities (residential mortgage bonds, commercial mortgage backed securities, or related asset backed securities), companies providing mortgage lending or emerging markets investments either directly or through our investments in CDO funds.

(5) The aggregate cost of investments for federal income tax purposes is approximately $245 million. The aggregate gross unrealized appreciation is approximately $4 million and there is no gross unrealized depreciation.

KOHLBERG CAPITAL CORPORATION

NOTES TO FINANCIAL STATEMENTS
(unaudited)

1. ORGANIZATION

Kohlberg Capital Corporation ("Kohlberg Capital" or the "Company") is an internally managed, non-diversified closed-end investment company that is regulated as a business development company ("BDC") under the Investment Company Act of 1940. The Company was formed as a Delaware LLC on August 8, 2006 and, prior to the issuance of shares of the Company's common stock in its initial public offering, converted to a corporation incorporated in Delaware on December 11, 2006. Prior to its initial public offering ("IPO"), the Company did not have material operations. The Company's IPO of 14,462,000 shares of our common stock raised net proceeds of approximately $200 million. Prior to the IPO, the Company issued 3,484,333 shares to affiliates of Kohlberg & Co., LLC ("Kohlberg & Co."), a leading middle market private equity firm, in exchange for the contribution of their ownership interests in Katonah Debt Advisors and in securities issued by collateralized debt obligation ("CDO") funds managed by Katonah Debt Advisors and two other asset managers to the Company.

The Company's investment objective is to generate current income and capital appreciation from investments made in senior secured term loans, mezzanine debt and selected equity investments in privately-held middle market companies. The Company also plans to expand the asset management business of Katonah Debt Advisors. Katonah Debt Advisors manages CDO Funds which invest in broadly syndicated loans, high-yield bonds and other credit instruments. As of June 30, 2007, Katonah Debt Advisors had approximately $2.1 billion of assets under management.

The Company intends to elect to be treated as a Regulated Investment Company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). To qualify as a RIC, the Company must, among other things, meet certain source-of-income and asset diversification requirements. Pursuant to this election, the Company generally will not have to pay corporate-level taxes on any income that it distributes to its stockholders.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements include the accounts of the Company and the accounts of its special purpose financing subsidiary, Kohlberg Capital Funding LLC I. All intercompany accounts and transactions have been eliminated in consolidation. In accordance with Article 6 of Regulation S-X under the Securities Act of 1933 and Securities Exchange Act of 1934, the Company does not consolidate portfolio company investments, including those in which it has a controlling interest (Katonah Debt Advisors currently is the only company in which the Company has a controlling interest).

The accompanying unaudited financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information. Accordingly, they do not include all of the information and footnotes required for annual financial statements. The unaudited interim financial statements and notes thereto should be read in conjunction with the financial statements and notes thereto included in the Company's Form 10-K for the fiscal year ended December 31, 2006, as filed with the Securities and Exchange Commission ("SEC").

The financial statements reflect all adjustments and reclassifications which, in the opinion of management, are necessary for the fair presentation of the Company's results of operations and financial condition for the periods presented. Furthermore, the preparation of the financial statements requires management to make significant estimates and assumptions. Actual results could differ from those estimates. The results of operations for the interim periods presented are not necessarily indicative of the operating results to be expected for the full year.

Investments

Investment transactions are recorded on the applicable trade date. Realized gains or losses are computed using the specific identification method.

Loans and Debt Securities . For loans and debt securities for which market quotations are readily available, such as broadly syndicated term loans and bonds, fair value generally is equal to the market price for those loans and securities. For loans and debt securities for which a market quotation is not readily available, such as middle market term loans and mezzanine debt investments, fair value generally approximates amortized cost unless the borrower's enterprise value or overall financial condition or other factors lead to a determination of fair value at a different amount; as a general rule, the Company does not value such loans or debt securities above cost, but such loans and debt securities will be subject to fair value write-downs when the asset is considered impaired.

Equity and Equity-Related Securities. The Company's equity and equity-related securities in portfolio companies for which there is no liquid public market are valued at fair value based on the enterprise value of the portfolio company, which will be determined using various factors, including cash flow from operations of the portfolio company and other pertinent factors, such as recent offers to purchase a portfolio company's securities or other liquidation events. The determined fair values are generally discounted to account for restrictions on resale and minority ownership positions. The value of the Company's equity and equity-related securities in public companies for which market quotations are readily available are based upon the closing public market price on the balance sheet date. Securities that carry certain restrictions on sale are typically valued at a discount from the public market value of the security. The Company's equity investment in its wholly-owned asset management company, Katonah Debt Advisors, is valued based on standard measures such the percentage of assets under management and a multiple of operating income used to value other asset management companies.

CDO Fund Securities. The securities issued by CDO funds managed by Katonah Debt Advisors ("CDO Funds") are primarily held by third parties. The Company typically makes a minority investment in the most junior class of securities of CDO Funds raised and managed by Katonah Debt Advisors and may selectively invest in securities issued by funds managed by other asset management companies (collectively "CDO Investments"). It is the Company's intention that its aggregate CDO Investments not exceed 10% of the Company's total investment portfolio. As of June 30, 2007, CDO Investments represented approximately 8% of the Company's investment portfolio.

The Company's CDO Investments are carried at fair value, which is based on a discounted cash flow model that utilizes prepayment and loss assumptions based on historical experience and projected performance, economic factors, the characteristics of the underlying cash flow and comparable yields for similar bonds and preferred shares/income notes, when available. The Company recognizes unrealized appreciation or depreciation on its CDO Investments as comparable yields in the market change and/or based on changes in estimated cash flows resulting from changes in prepayment or loss assumptions in the underlying collateral pool. As each CDO Investment ages, the expected amount of losses and the expected timing of recognition of such losses in the underlying collateral pool is updated and the revised cash flows are used in determining the fair value of the CDO Investment. The Company determines the fair value of its CDO Investments on an individual security-by-security basis.

Valuation of Portfolio Investments. Kohlberg Capital's Board of Directors is ultimately and solely responsible for making a good faith determination of the fair value of portfolio investments on a quarterly basis. Duff & Phelps, LLC, an independent valuation firm, provided third party valuation consulting services to the Company's Board of Directors which consisted of certain limited procedures that the Company's Board of Directors identified and requested them to perform. For the quarter ended June 30, 2007, the Company's Board of Directors asked Duff & Phelps, LLC to perform the limited procedures on investments in eight portfolio companies comprising approximately 47% of the total investments at fair value as of June 30, 2007 for which market quotations are not readily available. Upon completion of the limited procedures, Duff & Phelps, LLC concluded that the fair value of those investments subjected to the limited procedures did not appear to be unreasonable.

The Board of Directors may consider other methods of valuation than those set forth above to determine the fair value of investments as appropriate in conformity with GAAP. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments, and the differences could be material.

Restricted Cash. Restricted cash consists mostly of cash held in an operating account pursuant to the Company's secured revolving credit facility agreement with its lender.

Interest Income. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis to the extent that such amounts are expected to be collected. The Company generally places a loan on non-accrual status and ceases recognizing interest income on such loan or security when a loan or security becomes 90 days or more past due or if the Company otherwise does not expect the debtor to be able to service its debt obligations. Non-accrual loans remain in such status until the borrower has demonstrated the ability and intent to pay contractual amounts due or such loans become current. At June 30, 2007, no loans or debt securities were greater than 90 days past due or on non-accrual status.

Debt Issuance Costs. Debt issuance costs represent fees and other direct costs incurred in connection with the Company's borrowings. These amounts are capitalized and amortized ratably over the contractual term of the borrowing. At June 30, 2007, there was an unamortized debt issuance cost of approximately $1.5 million included in other assets in the accompanying balance sheet. Amortization expense for the three and six months ended June 30, 2007 was approximately $83,000 and $114,000, respectively. The Company had no borrowing facility in place or amortization of debt issuance costs at and for the year ended December 31, 2006.

Dividends. Dividends and distributions to common stockholders are recorded on the declaration date. The amount to be paid out as a dividend is determined by the Board of Directors each quarter and is generally based upon the earnings estimated by management for the period and fiscal year.

The Company has adopted a dividend reinvestment plan that provides for reinvestment of its distributions on behalf of its stockholders, unless a stockholder "opts out" of the plan to receive cash in lieu of having their cash dividends automatically reinvested in additional shares of the Company's common stock.

3. EARNINGS PER SHARE

The following information sets forth the computation of basic and diluted net increase in stockholders' equity per share for the three and six months ended June 30, 2007:

	Three Months Ended June 30, 2007	Six Months Ended June 30, 2007
Numerator for basic and diluted net increase in stockholders' equity resulting from operations per share:	$ 16,940,501	$ 30,889,509
Numerator for basic and diluted net investment income:	5,943,168	11,237,555
Denominator for basic weighted average shares:	17,960,502	17,953,457
Dilutive effect of stock options:	111,862	60,716
Denominator for diluted weighted average shares:	18,072,364	18,014,173
Basic net increase in stockholders' equity resulting from operations per share:	$ 0.94	$ 1.72
Diluted net increase in stockholders' equity resulting from operations per share:	$ 0.94	$ 1.71

4. INVESTMENTS

For the three months ended June 30, 2007, the Company purchased or originated at cost approximately $65 million of investments in debt securities and $5 million of investments in collateralized debt obligation securities. For the three months ended June 30, 2007, the Company sold or had loan pay-downs, at cost basis, approximately $15 million of investments in debt securities. For the six months ended June 30, 2007, the Company purchased or originated at cost approximately $130 million of investments in debt securities, $3 million in equity securities and $9 million of investments in collateralized debt obligation securities. For the six months ended June 30, 2007, the Company sold or had loan pay-downs, at cost basis, approximately $39 million of investments in debt securities. As of June 30, 2007, no securities were on non-accrual status.

Investment Securities

The Company invests in senior secured loans and mezzanine debt and, in the future and to a lesser extent, equity capital of middle market companies in a variety of industries. The Company generally targets companies that generate positive cash flows because the Company looks to cash flows as the primary source for servicing debt. However, the Company may invest in other industries if it is presented with attractive opportunities.

The following table shows the Company's portfolio by security type at June 30, 2007 and December 31, 2006:

	June 30, 2007 (unaudited)		December 31, 2006	
Security Type	Investments at Fair Value	Percentage of Portfolio	Investments at Fair Value	Percentage of Portfolio
Senior Secured Loan	$164,306,480	45.0%	$163,313,492	65.5%

The Company may invest up to 30% of the investment portfolio in opportunistic investments in high-yield bonds, debt and equity securities in CDO Funds, distressed debt or equity securities of public companies. The Company expects that these public companies generally will have debt that is non-investment grade. The Company also may invest in debt of middle market companies located outside of the United States, which investments (excluding the Company's investments in CDO Funds) are not anticipated to be in excess of 10% of the investment portfolio at the time such investments are made. As a result of regulatory restrictions, the Company is not permitted to invest in any portfolio company in which Kohlberg & Co. or any fund that it manages has a pre-existing investment.

At June 30, 2007 and December 31, 2006, approximately 12% and 13%, respectively, of the Company's investments were foreign assets (including the Company's investments in CDO Funds, which are typically domiciled outside the U.S. and represented approximately 8% of its portfolio on such dates).

At June 30, 2007 and December 31, 2006, the Company's ten largest portfolio companies represented approximately 36% and 35%, respectively, of the total fair value of its investments. The Company's largest investment, Katonah Debt Advisors which is its wholly-owned portfolio company, represented 16% and 15% of the total fair value of the Company's investments at June 30, 2007 and December 31, 2006, respectively.

Investment in CDO Fund Securities

The Company typically makes a minority investment in the most junior class of securities of CDO Funds (typically preferred shares or subordinated notes) managed by Katonah Debt Advisors and may selectively invest in securities issued by funds managed by other asset management companies. It is the Company's intention that its aggregate CDO Investments not exceed 10% of the Company's total investment portfolio. Preferred shares or subordinated notes issued by CDO Funds are entitled to recurring dividend distributions which generally equal the net remaining cash flow of the payments made by the underlying CDO Fund's securities less contractual payments to senior bond holders and CDO Fund expenses. The CDO Funds managed by Katonah Debt Advisors and other asset managers consist almost exclusively of credit instruments issued by corporations and do not invest in asset-backed securities such as those secured by residential mortgages or other consumer borrowings.

Prior to its IPO, the Company issued an aggregate of 1,258,000 common shares, having a value of approximately $19 million, to affiliates of Kohlberg & Co. to acquire certain subordinated debt and preferred stock securities issued by CDO Funds (Katonah III, Ltd., Katonah IV, Ltd., Katonah V, Ltd., Katonah VII CLO, Ltd., and Katonah VIII CLO, Ltd.) which had previously been raised and are managed by Katonah Debt Advisors and two other asset managers. During the six months ended June 30, 2007, the Company invested an additional $5 million in a new CDO Fund managed by Katonah Debt Advisors and another $4 million in a CDO Fund managed by a third party. The subordinated debt and preferred stock securities are considered equity positions in the CDO Funds and, as of June 30, 2007 and December 31, 2006, the Company had approximately $29 million and $21 million, respectively, of such CDO equity investments.

The cost basis of the Company's investment in CDO Fund equity securities as of June 30, 2007 was approximately $30 million and aggregate unrealized losses on the CDO Fund investments totaled $950,000. The cost basis of the Company's investment in CDO Fund equity securities as of December 31, 2006 was approximately $21 million and with no aggregate unrealized losses on the CDO Fund investments.

5. WHOLLY-OWNED ASSET MANAGER

Prior to its IPO, the Company issued an aggregate of 2,226,333 common shares, having a value of approximately $33 million, to affiliates of Kohlberg & Co. to acquire Katonah Debt Advisors. As a result, Katonah Debt Advisors is a wholly-owned portfolio company. As of June 30, 2007, Katonah Debt Advisors had approximately $2.1 billion of assets under management.

The Company expects to receive distributions of recurring fee income and to generate capital appreciation from its investment in the asset management business of Katonah Debt Advisors. By making investments in CDO Funds raised by Katonah Debt Advisors in the future, for which the Company expects to receive a current cash return, the Company can help Katonah Debt Advisors to raise these funds which in turn will increase its assets under management which will result in additional management fee income.

Katonah Debt Advisors, as a wholly-owned portfolio company, is accounted for using the equity method of accounting consistent with the Company's status as a BDC. Under the equity method of accounting, Katonah Debt Advisors is initially recorded at cost on the Company's balance sheet. Subsequent net income or losses of Katonah Debt Advisors under GAAP is recognized as affiliate income or loss on the Company's income statement with a corresponding increase (in the case of net income) or decrease (in the case of net loss) in the cost basis of the investment in Katonah Debt Advisors on the Company's balance sheet. The revenue that Katonah Debt Advisors generates through the fees it receives for managing CDO Funds and after paying the expenses associated with its operations, including compensation of its employees, may be distributed to the Company. Cash distributions of Katonah Debt Advisors' accumulated GAAP net income would increase cash and reduce the basis of Katonah Debt Advisors on the Company's balance sheet. As with all other investments, Katonah Debt Advisors' market value is periodically determined. The valuation is primarily based on a percentage of its assets under management and/or based on Katonah Debt Advisors' estimated net cash flows. Any change in value from period to period is recognized as unrealized gain or loss.

As a separately regarded entity for tax purposes, Katonah Debt Advisors, L.L.C. is taxed at normal corporate rates. For tax purposes, any distributions of taxable net income earned by Katonah Debt Advisors to the Company would generally need to be distributed to the Company's shareholders. Katonah Debt Advisors' taxable net income will differ from GAAP net income for both deferred tax timing adjustments and permanent tax adjustments. Deferred tax timing adjustments may include differences between lease cash payments to GAAP straight line expense and adjustments for the recognition and timing of depreciation, bonuses to employees, stock option expense, and interest rate caps. Permanent differences may include adjustments, limitations or disallowances for meals and entertainment expenses, penalties and tax goodwill amortization.

Tax goodwill amortization was created upon the purchase of 100% of the equity interests in Katonah Debt Advisors prior to the Company's IPO in exchange for shares of the Company's stock valued at $33 million. Although this transaction was a stock transaction rather than an asset purchase and thus no goodwill was recognized for GAAP purposes, for tax purposes such exchange was considered an asset purchase under Section 351(a) of the Code. At the time of the transfer, Katonah Debt Advisors had equity of approximately $1 million resulting in tax goodwill of approximately $32 million which will be amortized for tax purposes on a straight-line basis over 15 years, resulting in an annual difference between GAAP income and distributable income by which GAAP income will exceed distributable income by approximately $2 million per year over such period. As a result, if Katonah Debt Advisors were to distribute its GAAP net income to the Company, only Katonah Debt Advisors' taxable net income after such goodwill amortization will be required to be distributed to the Company's shareholders.

At June 30, 2007, net amounts due from affiliates totaled approximately $567,000.

Summarized financial information for Katonah Debt Advisors follows:

	As of June 30, 2007 (unaudited)	As of December 31, 2006
ASSETS		
Current assets	$ 4,125,061	$ 2,860,329
Noncurrent assets	483,484	661,637
Total assets	$ 4,608,545	$ 3,521,966
LIABILITIES		
Current liabilities	$ 2,551,082	$ 2,602,755
Total liabilities	$ 2,551,082	$ 2,602,755
Gross revenue*	$ 4,969,190	$ 200,610
Total expenses*	(3,830,938)	(273,320)
Net income (loss)*	$ 1,138,252	$ (72,710)

* For the six months ended June 30, 2007 and for the period December 11, 2006 (inception) through December 31, 2006.

6. BORROWINGS

The Company's debt obligations consist of the following:

	As of June 30, 2007 (unaudited)	As of December 31, 2006
Secured revolving credit facility, $200 million commitment with ability to increase to $250 million due February 14, 2012	$100,000,000	$ —

On February 14, 2007, the Company entered into an arrangement under which the Company may obtain up to $200 million (with an ability to increase to $250 million subject to certain conditions) in financing (the "Facility"). Advances under the Facility are used by the Company primarily to make additional investments. The Company expects that the Facility will be secured by loans that it currently owns and the loans acquired by the Company with the advances under the Facility. The Company will borrow under the Facility through its wholly-owned, special-purpose bankruptcy remote subsidiary, Kohlberg Capital Funding LLC I. Under the Facility, funds are loaned by or through certain lenders at prevailing commercial paper rates or, if the commercial paper market is at any time unavailable, at prevailing LIBOR rates, plus an applicable margin. The interest charged on borrowed funds is based on the commercial paper rate plus 0.70% and is payable monthly.

The weighted average daily debt balance for the three months ended June 30, 2007 was approximately $55 million. For the three months ended June 30, 2007, the weighted average interest rate on weighted average outstanding borrowings was 5.4% which excludes the amortization of deferred financing costs and facility and program fees on unfunded balances. The Company is in compliance with all its debt covenants. As of June 30, 2007, the Company had restricted cash balances of approximately $2.7 million which it maintained in accordance with the terms of the Facility. A portion of these funds, approximately $977,000, were released to the Company in July 2007.

7. DISTRIBUTABLE TAX INCOME

The Company intends to distribute quarterly dividends to its stockholders. The Company's quarterly dividends, if any, will be determined by the Board of Directors. To maintain its RIC status, the Company must timely distribute an amount equal to at least 90% of its ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, reduced by deductible expenses, out of the assets legally available for distribution, for each year. Depending on the level of taxable income earned in a tax year, the Company may choose to carry forward taxable income in excess of current year distributions into the next tax year and pay a 4% excise tax on such income, to the extent required. As of December 31, 2006, the Company's undistributed taxable income was approximately $529,000. The Company plans to distribute 2006 distributable income in 2007.

For the three months ended June 30, 2007, the Company declared a dividend on June 8, 2007 of $0.35 per share for a total of approximately $6 million. The record date was July 9, 2007 and the dividend was distributed on July 23, 2007.

The following reconciles net increase in stockholders' equity resulting from operations to taxable income for the six months ended June 30, 2007:

Pre-tax net increase in stockholders' equity resulting from operations	$ 30,889,509
Net unrealized gain on investments transactions not taxable	(19,432,492)
Other income not currently taxable	(1,138,252)
Expenses not currently deductible	143,866
Taxable income before deductions for distributions	$ 10,462,631
Taxable income before deductions for distributions per outstanding share	$ 0.58

8. COMMITMENTS AND CONTINGENCIES

As of June 30, 2007, the Company had committed to make a total of approximately $4 million of investments in various revolving senior secured loans, of which approximately $684,000 was funded. As of June 30, 2007, the Company had committed to make a total of approximately $952,000 of investments in a delayed draw senior secured loan. As of December 31, 2006, the Company had committed to make a total of approximately $2 million of investments in various revolving senior secured loans, all of which was unfunded. As of December 31, 2006, the Company had committed to make a total of approximately $667,000 of investments in a delayed draw senior secured loan.

On February 7, 2007, the Company entered into an agreement with Bear, Stearns & Co. Inc. ("Bear Stearns") pursuant to which Bear Stearns will provide services relating to the formation of a CDO Fund, managed by Katonah Debt Advisors, to be named Briarcliff CLO I Ltd. ("Briarcliff"), which will generally invest in broadly syndicated corporate loans rated "BBB" to "B" and mezzanine securities of other corporate leveraged loan CDO funds (other than the CDO Funds managed by Katonah Debt Advisors) rated "BBB" or "BB", with a total fund size expected to be $400 million. As part of this engagement, Katonah Debt Advisors entered into a warehouse credit agreement, under which Bear Stearns will provide funding which will allow it to accumulate assets for Briarcliff. Pursuant to this warehouse credit agreement, the Company agreed to reimburse Bear Stearns for losses incurred on loans acquired for Briarcliff prior to the completion of the fund (a "First Loss Guarantee"). Upon completion of the fund, the Company's reimbursement obligation will be limited to losses incurred as a result of payment defaults on loans or that become rated "CCC" held in the warehouse and further limited based on a percentage of warehoused assets. In the event that the fund is not completed and closed, the reimbursement obligation will be limited to the aggregate difference between the purchase price of the warehoused collateral and the price at which such loan is sold. In return for providing this First Loss Guarantee, the Company will receive all interest and other non-principal distributions made with respect to the CDO's investments serving as collateral upon the closing of the securitization, less the financing costs of LIBOR plus 0.75%, reset daily. As of June 30, 2007 Katonah Debt Advisors had aggregated approximately $294 million of assets for Briarcliff, all of which were performing according to their contractual terms, and the Company does not expect to incur any losses on the assets acquired for Briarcliff.

On March 3, 2007, the Company entered into an agreement with Bear Stearns pursuant to which Bear Stearns will provide services relating to the formation of a CDO Fund, managed by Katonah Debt Advisors, to be named Katonah CLO XI Ltd. ("Katonah CLO XI") which will invest in broadly syndicated senior loans, second lien loans, and other credit instruments (excluding asset backed securities such as those secured by residential mortgages or other consumer borrowings) with a total fund size expected to be $400 million. As part of this engagement, Katonah Debt Advisors entered into a warehouse credit agreement, under which Bear Stearns will provide funding which will allow it to accumulate assets for Katonah CLO XI. Pursuant to this warehouse credit agreement, the Company agreed to reimburse Bear Stearns for losses incurred on loans acquired for Katonah CLO XI prior to the completion of the fund. Upon completion of the fund, the Company's reimbursement obligation will be limited to losses incurred as a result of payment defaults on loans or that become rated "CCC" held in the warehouse and further limited based on a percentage of warehoused assets. In the event that the fund is not completed and closed, the reimbursement obligation will be limited to the aggregate difference between the purchase price of the warehoused collateral and the price at which such loan is sold. In return for providing this First Loss Guarantee, the Company will receive all interest and other non-principal distributions made with respect to the CDO's investments serving as collateral upon closing of the securitization, less the financing costs of 0.75% plus LIBOR, reset daily. As of June 30, 2007 Katonah Debt Advisors had aggregated approximately $126 million of assets for Katonah CLO XI, all of which were performing according to their contractual terms, and the Company does not expect to incur any losses on the loans acquired for Katonah CLO XI.

On March 12, 2007, the Company entered into an agreement with Lehman Commercial Paper Inc. ("Lehman") pursuant to which Lehman will provide services relating to the formation of a CDO Fund, managed by Katonah Debt Advisors, to be named Ardsley CLO 2007-1 Ltd. ("Ardsley CLO 2007-1") which will invest in senior loans to middle market companies, broadly syndicated senior loans and other credit instruments (excluding asset backed securities such as those secured by residential mortgages or other consumer borrowings) of corporate issuers with a total fund size expected to be $300 million. As part of this engagement, Katonah Debt Advisors entered into a warehouse credit agreement, under which Lehman will provide funding which will allow it to accumulate assets for Ardsley CLO 2007-1. Pursuant to this warehouse credit agreement, the Company agreed to reimburse Lehman for losses incurred on loans acquired for Ardsley CLO 2007-1 prior to the completion of the fund. Upon completion of the fund, the Company's reimbursement obligation will be limited to losses incurred as a result of payment defaults on loans or that become rated "CCC" held in the warehouse and further limited based on a percentage of warehoused assets. In the event that the fund is not completed and closed, the reimbursement obligation will be limited to the aggregate difference between the purchase price of the warehoused collateral and the price at which such loan is sold. In return for providing this First Loss Guarantee, the Company will receive all interest and other non-principal distributions made with respect to the CDO's investments serving as collateral upon closing of the securitization, less the financing costs of 0.75% plus LIBOR, reset daily. As of June 30, 2007 Katonah Debt Advisors had aggregated approximately $63 million in loans for Ardsley CLO 2007-1, all of which were performing according to their contractual terms, and the Company does not expect to incur any losses on the loans acquired for Ardsley CLO 2007-1.

9. STOCKHOLDERS' EQUITY

On December 11, 2006, the Company completed its IPO of 14,462,000 shares of common stock at $15.00 per share, less an underwriting discount and IPO expenses paid by the Company totaling $1.22 per share for net proceeds of approximately $200 million. Prior to its IPO, the Company issued to affiliates of Kohlberg & Co. a total of 3,484,333 shares of its common stock for the acquisition of certain subordinated securities issued by CDO Funds and for the acquisition of Katonah Debt Advisors. During the six months ended June 30, 2007, the Company issued 17,192 shares of common stock under its dividend reinvestment plan. The total number of shares outstanding as of June 30, 2007 and as of December 31, 2006 was 17,963,525 and 17,946,333, respectively.

10. STOCK OPTIONS

During 2006, the Company established a stock option plan (the "Plan") and reserved 1,500,000 shares of common stock for issuance under the Plan. The purpose of the Plan is to provide officers and prospective employees of the Company with additional incentives and align the interests of its employees with those of its shareholders. Options are exercisable at a price equal to the fair market value (market closing price) of the shares on the day the option is granted.

On December 11, 2006, concurrent with the completion of the Company's IPO, options to purchase a total of 910,000 shares of common stock were granted to the Company's executive officers and directors with an exercise price per share of $15.00 (the public offering price of the common stock). Such options vest equally over two, three or four years from the date of grant and have a ten-year exercise period. During the six months ended June 30, 2007, the Company granted 495,000 options to its employees with a weighted average exercise price per share of $16.63, with a risk-free rate ranging between 4.6% to 5.3%, with volatility rates ranging between 20.5% to 22.4% and for which 25% of such options vest on each of the subsequent four grant date anniversaries and have a ten-year exercise period. As of June 30, 2007, 1,405,000 total options were outstanding, none of which were exercisable. The options have an estimated remaining contractual life of 9 years and 6 months.

During the three and six months ended June 30, 2007, the weighted average grant date fair value per share for options granted during the period was $2.46 and $1.90, respectively. Information with respect to options granted, exercised and forfeited under the Plan for the six months ended June 30, 2007 is as follows:

	Shares	Weighted Average Exercise Price per Share	Weighted Average Contractual Remaining Term (years)	Aggregate Intrinsic Value[(1)]
Options outstanding at January 1, 2007	910,000	$ 15.00		
Granted	495,000	$ 16.63		
Exercised	—			
Forfeited	—			
Outstanding at June 30, 2007	1,405,000	$ 15.57	9.5	$ 4,181,150

(1) Represents the difference between the market value of the options at June 30, 2007 and the cost for the option holders to exercise the options.

The Company uses a Binary Option Pricing Model (American, call option) valuation model to establish the expected value of all stock option grants. For the three months ended June 30, 2007, total stock option expense of approximately $159,000 was recognized; of this amount approximately $101,000 was expensed at the Company and approximately $58,000 was expensed at Katonah Debt Advisors. For the six months ended June 30, 2007, total stock option expense of approximately $306,000 was recognized; of this amount approximately $225,000 was expensed at the Company and approximately $81,000 was expensed at Katonah Debt Advisors. At June 30, 2007, the Company had approximately $1.9 million of compensation cost related to unvested stock-based awards the cost for which is expected to be recognized and allocated between the Company and Katonah Debt Advisors over a weighted average period of 3.0 years.

11. OTHER EMPLOYEE COMPENSATION

The Company adopted a 401(k) plan ("401K Plan") effective January 1, 2007. The 401K Plan is open to all full time employees. The Plan permits an employee to defer a portion of their total annual compensation up to the Internal Revenue Service annual maximum based on age and eligibility. The Company makes contributions to the 401K Plan of up to 2.67% of the employee's first 74.9% of contributions, which fully vest at the time of contribution. For the three and six months ended June 30, 2007, the Company's contributions to the 401K Plan were $0 and $6,000, respectively.

The Company has also adopted a deferred compensation plan ("Pension Plan") effective January 1, 2007. Employees are eligible for the Pension Plan provided that they are employed and working with the Company for at least 100 days during the year and remain employed as of the last day of the year. Employees do not make contributions to the Pension Plan. On behalf of the employee, the Company contributes to the Pension Plan 1) 8.0% of all compensation up to the Internal Revenue Service annual maximum and 2) 5.7% excess contributions on any incremental amounts above the social security wage base limitation and up to the Internal Revenue Service annual maximum. Employees vest 100% in the Pension Plan after five years of service. For the three and six months ended June 30, 2007, the Company's contributions to the Pension Plan were $0 and $26,000, respectively.

12. IMPACT OF NEW ACCOUNTING STANDARDS

In July 2006, the Financial Accounting Standards Board issued Interpretation No. 48 ("FIN 48"), Accounting for Uncertainty in Income Taxes, which clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. FIN 48 provides guidance on the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosures, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company has assessed the adoption of FIN 48 and concluded that it did not materially impact the Company's financial position or results from operations.

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157 ("SFAS 157"), Fair Value Measurements. SFAS 157 clarifies the principle that fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. Under the standard, fair value measurements would be separately disclosed by level within the fair value hierarchy. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years, with early adoption permitted. The Company does not expect the adoption of SFAS 157 to materially impact The Company's financial position or results of operations.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities ("SFAS 159"), which provides companies with an option to report selected financial assets and liabilities at fair value. The objective of SFAS 159 is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS 159 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of a company's choice to use fair value on its earnings. SFAS 159 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. SFAS 159 does not eliminate disclosure requirements of other accounting standards, including fair value measurement disclosures in SFAS 157. This Statement is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007. Early adoption is permitted as of the beginning of the previous fiscal year provided that the entity makes that choice in the first 120 days of that fiscal year and also elects to apply the provisions of Statement 157. At this time, the Company is evaluating the implications of SFAS No. 159, and its impact on the financial statements has not yet been determined.

[Table of Contents](#)

13. SUBSEQUENT EVENTS

On August 2, 2007, the Company purchased an additional $7.5 million par amount of the subordinated securities of Katonah X CLO Ltd. Including this incremental investment, the Company owns an approximate 33% minority equity interest in this CDO Fund.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in this section should be read in conjunction with our financial statements and notes thereto appearing elsewhere in this quarterly report. In addition, some of the statements in this report constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. The matters discussed in this report, as well as in future oral and written statements by management of Kohlberg Capital Corporation, that are forward-looking statements are based on current management expectations that involve substantial risks and uncertainties which could cause actual results to differ materially from the results expressed in, or implied by, these forward-looking statements. Forward-looking statements relate to future events or our future financial performance. We generally identify forward-looking statements by terminology such as "may," "will," "should," "expects," "plans," "anticipates," "could," "intends," "target," "projects," "contemplates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of these terms or other similar words. Important assumptions include our ability to acquire or originate new investments, achieve certain margins and levels of profitability, the availability of additional capital, and the ability to maintain certain debt to asset ratios. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this report should not be regarded as a representation by us that our plans or objectives will be achieved. The forward-looking statements contained in this report include statements as to:

- our future operating results;
- our business prospects and the prospects of our existing and prospective portfolio companies;
- the impact of investments that we expect to make;
- our informal relationships with third parties;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the ability of our portfolio companies to achieve their objectives;
- our expected financings and investments;
- our regulatory structure and tax treatment;
- our ability to operate as a business development company and a regulated investment company;
- the adequacy of our cash resources and working capital; and
- the timing of cash flows, if any, from the operations of our portfolio companies, including Katonah Debt Advisors.

There are a number of important risks and uncertainties that could cause our actual results to differ materially from those indicated by such forward-looking statements. For a discussion of factors that could cause our actual results to differ from forward-looking statements contained in this quarterly report, please see the discussion under "Risk Factors" in Item 1A in our Annual Report on Form 10-K for the fiscal year ended December 31, 2006. You should not place undue reliance on these forward-looking statements. The forward-looking statements made in this quarterly report relate only to events as of the date on which the statements are made. We undertake no obligation to update any forward-looking statement to reflect events or circumstances occurring after the date of this quarterly report.

GENERAL

We are an internally managed, non-diversified closed-end investment company that has elected to be regulated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). We were organized to continue and expand the middle market investment business and asset management business of Katonah Debt Advisors, L.L.C. (together with any additional direct or indirect wholly-owned subsidiaries that we organize in connection with the business of Katonah Debt Advisors, L.L.C., "Katonah Debt Advisors"). We acquired Katonah Debt Advisors and certain related assets prior to our initial public offering ("IPO") from affiliates of Kohlberg & Co., LLC, a middle market private equity firm. Our middle market investment business originates, structures and manages a portfolio of senior secured term loans and also invests in mezzanine debt and selected equity securities in privately-held middle market companies. Our wholly-owned portfolio company, Katonah Debt Advisors, manages third party collateralized debt obligation funds ("CDO Funds") that invest in broadly syndicated loans, high-yield bonds and other credit instruments. As of June 30, 2007, Katonah Debt Advisors had approximately $2.1 billion of assets under management.

Our investment objective is to generate current income and capital appreciation from the investments made by our middle market business in senior secured first and second lien term loans, mezzanine debt and selected equity investments in privately-held middle market companies. We also expect to receive distributions of recurring fee income and to generate capital appreciation from our investment in the asset management business of Katonah Debt

Advisors. Our investment portfolio and the CDO Funds managed by Katonah Debt Advisors, consist almost exclusively of credit instruments issued by corporations and do not include investments in asset-backed securities such as those secured by residential mortgages or other consumer borrowings.

As a Regulated Investment Company ("RIC"), we intend to distribute to our stockholders substantially all of our net taxable income and the excess of realized net short-term capital gains over realized net long-term capital losses. To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements. Pursuant to these elections, we generally will not have to pay corporate-level taxes on any income that we distribute to our stockholders.

Investment Securities

We invest in senior secured loans and mezzanine debt and, in the future and to a lesser extent, equity capital, of middle market companies in a variety of industries. We generally target companies that generate positive cash flows because we look to cash flows as the primary source for servicing debt. However, we may invest in other industries if we are presented with attractive opportunities.

Kohlberg Capital's portfolio investments at fair value increased from $249 million at December 31, 2006 to $366 million as of June 30, 2007. The net increase in portfolio size was funded primarily with borrowings under our new credit facility and with the proceeds of the over-allotment option exercised in connection with our December 2006 IPO. During the six months ended June 30, 2007, the Company also sold some of its initial portfolio of primarily first lien loans that were accumulated prior to completion of the IPO in order to move towards our targeted portfolio mix of first and second lien loans, mezzanine finance and equity securities.

First lien loan balances at fair value increased to $164 million at June 30, 2007 from $163 million at December 31, 2006. Second lien, mezzanine loan and bond positions increased to $111 million at June 30, 2007 from $27 million at December 31, 2006. The Company had equity securities, other than CDO equity securities, totaling $3 million and investments in CDO Fund securities of $29 million at June 30, 2007. The increase in investment positions is primarily a result of increased secured borrowings which finance such investment purchases. At June 30, 2007, the Company's investments in loans and debt securities had an annual weighted average interest rate of approximately 10%.

The investment portfolio (excluding the Company's investment in Katonah Debt Advisors and CDO Funds) at quarter end is well-diversified across 24 different industries and 68 different entities with an average balance per investment of approximately $4 million. As of June 30, 2007, all portfolio companies were current on their debt service obligations. The Company's portfolio, including the CDO Funds in which it invests, and the CDO Funds managed by Katonah Debt Advisors consist almost exclusively of credit instruments issued by corporations and do not include investments in asset-backed securities, such as those secured by commercial mortgages, residential mortgages or other consumer borrowings.

We may invest up to 30% of our investment portfolio in opportunistic investments in high-yield bonds, debt and equity securities in CDO Funds, distressed debt or equity securities of public companies. We expect that these public companies generally will have debt that is non-investment grade. As a result of regulatory restrictions, we are not permitted to invest in any portfolio company in which Kohlberg & Co. or any fund that it manages has a pre-existing investment.

Investment in CDO Fund Securities

Our CDO Funds managed by Katonah Debt Advisors invest primarily in non-investment grade broadly syndicated loans, high-yield bonds and other credit instruments of corporate issuers. The underlying assets in each of the CDO Funds in which we have any investment are generally diversified secured or unsecured corporate debt and exclude mortgage pools or mortgage securities (residential mortgage bonds, commercial mortgage backed securities, or related asset backed securities), debt to companies providing mortgage lending and emerging markets investments. The CDO Funds are leveraged funds and any excess cash flow or "excess spread" (interest earned by the underlying securities in the fund less payments made to senior bond holders and less appropriate fund expenses (including management fees)) is paid to the holders of the CDO Fund's subordinated securities or preferred stock. As an investor in the subordinated securities or preferred stock of CDO Funds we expect to receive our pro-rata portion (relative to our percentage ownership of the subordinated securities or preferred stock) of the fund's excess spread.

The securities issued by CDO Funds managed by Katonah Debt Advisors are primarily held by third parties. The Company typically makes a minority investment in the most junior classes of securities of CDO Funds raised and managed by Katonah Debt Advisors and may selectively invest in securities issued by CDO Funds managed by other asset management companies. Our CDO Investments are carried at fair value, which is based on a discounted cash flow model that utilizes prepayment and loss assumptions based on historical experience and projected performance, economic factors, the characteristics of the underlying cash flow and comparable yields for similar bonds and preferred shares/income notes, when available. We recognize unrealized appreciation or depreciation on our CDO Investments as comparable yields in the market change and/or based on changes in estimated cash flows resulting from changes in prepayment or loss assumptions in the underlying collateral pool. As each CDO Investment ages, the expected amount of losses and the expected timing of recognition of such losses in the underlying collateral pool is updated and the revised cash flows are used in determining the fair value of the CDO Investment. We determine the fair value of our CDO Investments on an individual security-by-security basis.

Investment in Katonah Debt Advisors

Katonah Debt Advisors is our wholly-owned asset management company that manages CDO Funds that invest in broadly syndicated loans, high yield bonds and other credit instruments. As a manager of the CDO Funds, Katonah Debt Advisors expects to receive its contractual and recurring management fee and any subsequent incentive management fees from the CDO Funds for its management and advisory services. The CDO Funds managed by Katonah Debt Advisors consist almost exclusively of credit instruments issued by corporations and do not invest in asset-backed securities such as those secured by residential mortgages or other consumer borrowings. Katonah Debt Advisors receives management fees, which are generally based on a fixed percentage of assets under management, and generates annual operating income equal to the amount by which its fee income exceeds it operating expenses. Katonah Debt Advisors also typically receives one-time structuring fees upon the creation of a new CDO Fund and may also receive incentive fees paid by the CDO Funds if it achieves a specified rate of return to the subordinated debt or preferred stock securities. As of June 30, 2007, Katonah Debt Advisors had approximately $2.1 billion of assets under management.

We expect to receive distributions of recurring fee income and to generate capital appreciation from our investment in the asset management business of Katonah Debt Advisors. By making investments in CDO Funds raised by Katonah Debt Advisors in the future, for which we expect to receive a current cash return, we can help Katonah Debt Advisors raise these funds which in turn will increase its assets under management which will result in additional management fee income.

Katonah Debt Advisors, as a wholly-owned portfolio company, is accounted for using the equity method of accounting consistent with our status as a BDC. Under the equity method of accounting, Katonah Debt Advisors is initially recorded at cost on our balance sheet. Subsequent net income or losses of Katonah Debt Advisors under accounting principles generally accepted in the United States (“GAAP”) is recognized as affiliate income or loss on our income statement with a corresponding increase (in the case of net income) or decrease (in the case of net loss) in our investment in Katonah Debt Advisors on the balance sheet. The revenue that Katonah Debt Advisors generates through the fees it receives for managing CDO Funds and after paying the expenses associated with its operations, including compensation of its employees, may be distributed to us. Cash distributions of Katonah Debt Advisors’ accumulated GAAP net income would reduce the basis of Katonah Debt Advisors on our balance sheet. As with all other investments, Katonah Debt Advisors’ market value is periodically determined. The valuation is based primarily on a percentage of its assets under management and/or based on Katonah Debt Advisors’ estimated net cash flows. Any change in value from period to period is recognized as unrealized gain or loss.

As a separately regarded entity for tax purposes, Katonah Debt Advisors, L.L.C. is taxed at normal corporate rates. For tax purposes, any distributions of taxable net income earned by Katonah Debt Advisors to us would generally need to be distributed to our shareholders. Katonah Debt Advisors’ taxable net income will differ from GAAP net income for both deferred tax timing adjustments and permanent tax adjustments. Deferred tax timing adjustments may include differences between lease cash payments to GAAP straight line expense and adjustments for the recognition and timing of depreciation, bonuses to employees, stock option expense, and interest rate caps. Permanent differences may include adjustments, limitations or disallowances for meals and entertainment expenses, penalties and tax goodwill amortization.

Tax goodwill amortization was created upon the purchase of 100% of the equity interests in Katonah Debt Advisors prior to our IPO in exchange for shares of our stock valued at $33 million. Although this transaction was a stock transaction rather than an asset purchase and thus no goodwill was recognized for GAAP purposes, for tax purposes such exchange was considered an asset purchase under Section 351(a) of the Internal Revenue Code of 1986, as amended (the “Code”). At the time of the transfer, Katonah Debt Advisors had equity of approximately $1 million resulting in tax goodwill of approximately $32 million which will be amortized for tax purposes on a straight-line basis over 15 years, resulting in an annual difference between GAAP income and distributable income by which GAAP income will exceed distributable income by approximately $2 million per year over such period. As a result, if Katonah Debt Advisors were to distribute its GAAP net income to us, only Katonah Debt Advisors’ taxable net income after such goodwill amortization will be required to be distributed to our shareholders.

RESULTS OF OPERATIONS

The principal measure of our financial performance is the net increase in stockholders' equity resulting from operations which includes net investment income (loss) and net realized and unrealized gain (loss). Net investment income (loss) is the difference between our income from interest, dividends, fees, and other investment income and our operating expenses. Net realized gain (loss) on investments, is the difference between the proceeds received from dispositions of portfolio investments and their stated cost. Net unrealized appreciation (depreciation) on investments is the net change in the fair value of our investment portfolio.

Set forth below is a discussion of our results of operations for the three and six months ended June 30, 2007. Prior to the completion of our IPO on December 11, 2006, we had no material operations. Therefore, there are no comparable prior periods presented.

Investment Income

Investment income for the three months ended June 30, 2007 was approximately $8.6 million. Of this amount, approximately $5.8 million was related to interest income on our middle market investments which had an average par value during the period of approximately $238.4 million. For the three months ended June 30, 2007 approximately $805,000 of investment income was related to interest on assets accumulated for future CDO issuances on which the Company has provided a first loss guaranty in connection with loan warehouse arrangements for Katonah Debt Advisors CDO Funds. Approximately $1.7 million of investment income is related to dividends earned on CDO equity investments.

Investment income for the six months ended June 30, 2007 was approximately $15.1 million. Of this amount, approximately $10.2 million was related to interest income on our middle market investments which had an average par value during the period of approximately $219.4 million. For the six months ended June 30, 2007 approximately $875,000 of investment income was related to interest on assets accumulated for future CDO issuances on which the Company has provided a first loss guaranty in connection with loan warehouse arrangements for Katonah Debt Advisors CDO Funds. Approximately $3.4 million of investment income is related to dividends earned on CDO equity investments.

Investment income is primarily dependent on the composition and credit quality of our investment portfolio. Generally, our debt securities portfolio is expected to generate predictable, recurring interest income in accordance with the contractual terms of each loan. Corporate equity securities may pay a dividend and may increase in value for which a gain may be recognized; generally such dividend payments and gains are less predictable than interest income on our loan portfolio. Dividends from CDO Fund securities are dependent on the performance of the underlying assets in each CDO Fund; interest payments, principal amortization and prepayments of the underlying loans in each CDO Fund are primary factors which determine the level of income on our CDO Fund securities.

Expenses

Total expenses for the three months ended June 30, 2007 were approximately $3 million. Interest expense and amortization on debt issuance costs for the period, which includes facility and program fees on the unused loan balance, was approximately $1 million on average debt outstanding of $55 million. Approximately $917,000 of expenses related to employment compensation, including salaries, bonuses and stock option expense for the period. Other expenses included approximately $955,000 in professional fees primarily related to legal costs related to the initiation of public filings (first year proxy, Form 10-K, etc.), legal costs related to the initiation of other certain regulatory and compliance matters and recruiting fees for which the ongoing and recurring costs for such matters are expected to be substantially less. Administrative and other costs totaled $363,000 and include occupancy expense, insurance, technology and other office expenses.

Total expenses for the six months ended June 30, 2007 were approximately $5 million. Interest expense and amortization on debt issuance costs for the period, which includes facility and program fees on the unused loan balance, was approximately $1 million on average debt outstanding of $30 million. Approximately $2 million of expenses related to employment compensation, including salaries, bonuses and stock option expense for the period. Other expenses included approximately $1 million in professional fees primarily related to legal costs related to the initiation of public filings (first year proxy, Form 10-K, etc.), legal costs related to the initiation of other certain regulatory and compliance matters and recruiting fees for which the ongoing and recurring costs for such matters are expected to be substantially less. Administrative and other costs totaled $701,000 and include occupancy expense, insurance, technology and other office expenses.

Interest and compensation expense are generally expected to be our largest expenses each period. Interest expense is dependent on the average outstanding balance on our revolving credit facility and the base index rate for the period. Compensation expense includes base salaries, bonuses, stock compensation, employee benefits and employer related payroll costs. The largest components of total compensation costs are base salaries and bonuses; generally, base salaries are expensed as incurred and bonus expenses are estimated and accrued since bonuses are paid annually.

Equity in Income from Affiliate

At June 30, 2007, Kohlberg Capital's investment in its wholly-owned portfolio company, Katonah Debt Advisors, was approximately $59.0 million. For the three and six months ended June 30, 2007, Katonah Debt Advisors had GAAP net income of approximately $651,000 and $1.1 million, respectively. The net income of Katonah Debt Advisors is included in the GAAP income of Kohlberg Capital Corporation. For purposes of calculating quarterly dividends, only cash distributions of Katonah Debt Advisors' current or accumulated undistributed net income to Kohlberg Capital are included. Katonah Debt Advisors made no cash distributions of its income in the first quarter of 2007. For purposes of calculating distributable income for required quarterly dividends as a regulated investment company, Katonah Debt Advisors' net income is further reduced by approximately $2 million per annum for tax goodwill amortization resulting from its acquisition by Kohlberg Capital prior to the IPO. As a result, the amount of our declared dividends, as evaluated by management and approved by our board of directors, is based on our evaluation of both distributable income for tax purposes and GAAP net investment income (which excludes unrealized gains and losses) and may result in a dividend amount that exceeds our distributable tax income but not our GAAP net investment income.

Net Unrealized Appreciation on Investments

During the three and six months ended June 30, 2007, the Company's investments had an increase in net unrealized appreciation of $11.7 million and $20.3 million, respectively. The increase in net unrealized appreciation was primarily a result of the appreciation of our wholly-owned portfolio company, Katonah Debt Advisors. Katonah Debt Advisors, as a portfolio manager, receives fee income from managing CDO Funds which invest in broadly syndicated loans, high-yield bonds and other credit instruments.

The increase in value is primarily as a result of an increase in Katonah Debt Advisors' assets under management from $1.2 billion prior to our IPO to $2.1 billion as of June 30, 2007. During the six months ended June 30, 2007, Katonah Debt Advisors increased its assets under management through the completion of Katonah X CLO Ltd. with approximately $486.0 million in assets at June 30, 2007. In addition, during the six months ended June 30, 2007, Katonah Debt Advisors began to aggregate assets of approximately $498.0 million for new funds it expects to complete by year-end 2007 or early 2008.

Net Increase in Stockholders' Equity Resulting From Operations

The net increase in stockholders' equity resulting from operations for the six months ended June 30, 2007 was approximately $31.0 million, or $1.72 per outstanding share.

FINANCIAL CONDITION, LIQUIDITY, AND CAPITAL RESOURCES

Liquidity is a measure of our ability to meet potential cash requirements, including ongoing commitments to repay borrowings, fund and maintain investments, pay dividends to our stockholders and other general business needs. We recognize the need to have funds available for operating our business and to make investments. We seek to have adequate liquidity at all times to cover normal cyclical swings in funding availability and to allow us to meet abnormal and unexpected funding requirements. We plan to satisfy our liquidity needs through normal operations with the goal of avoiding unplanned sales of assets or emergency borrowing of funds.

In addition to the traditional sources of available funds (issuance of new equity, debt or undrawn warehouse facility capacity), we also have the ability to raise additional cash funds through the securitization of assets on our balance sheet through our wholly-owned asset manager, Katonah Debt Advisors. Such a securitization will provide cash for new investments on our balance sheet as well as additional management fee income and potentially increased value (as a result of increased assets under management) for Katonah Debt Advisors.

As a BDC, we are limited in the amount of leverage we can incur to finance our investment portfolio. We are required to meet a coverage ratio of total assets to total senior securities of at least 200%. For this purpose, senior securities include all borrowings and any preferred stock. As a result, our ability to utilize leverage as a means of financing our portfolio of investments is limited by this asset coverage test.

As of June 30, 2007 and December 31, 2006 the fair value of investments and cash and cash equivalents were as follows:

	Investments at Fair Value (unaudited)	
Security Type	**June 30, 2007**	**December 31, 2006**
Cash and cash equivalents	$ 14,156,755	$ 32,404,493
Senior Secured Loan	164,306,480	163,313,492
Junior Secured Loan	78,628,735	27,453,892
Mezzanine Investment	27,365,817	—
Senior Subordinated Bond	2,850,000	—
Senior Unsecured Bond	2,000,000	—
CDO Equity	28,920,000	20,870,000
Equity Securities	2,974,140	—
Portfolio Management Company	58,990,846	37,574,995
Total	$ 380,192,773	$ 281,616,872

On February 14, 2007, the Company entered into an arrangement under which the Company may obtain up to $200 million (with an ability to increase to $250 million subject to certain conditions) in financing (the "Facility") due February 14, 2012. Advances under the Facility are used by the Company primarily to make additional investments. The Company expects that the Facility will be secured by loans that it currently owns and the loans acquired by the Company with the advances under the Facility. The Company will borrow under the Facility through its wholly-owned, special-purpose bankruptcy remote subsidiary, Kohlberg Capital Funding LLC I. Under the Facility, funds are loaned by or through certain lenders at prevailing commercial paper rates or, if the commercial paper market is at any time unavailable, at prevailing LIBOR rates, plus an applicable margin. The interest charged on borrowed funds is based on the commercial paper rate plus 0.70% and is payable monthly. As of June 30, 2007, the outstanding balance on this facility was $100 million with available additional borrowing capacity of $100 million. The maturity date of the facility is February 14, 2012. As of June 30, 2007, we had restricted cash balances of approximately $2.7 million which we maintained in accordance with the terms of our Facility. A portion of these funds, approximately $977,000, were released to us in July 2007.

We expect our cash on hand, borrowings under our current Facility's undrawn commitments, and cash generated from operations, including income earned from investments and any income distributions made by Katonah Debt Advisors, our wholly-owned portfolio company, will be adequate to meet our cash needs at our current level of operations. Our primary use of funds will be investments in secured lien loans, mezzanine debt and CDO Fund equity. In order to fund new originations, we intend to use cash on hand, advances under our credit Facility and equity financings. Our credit Facility contains collateral requirements, including, but not limited to, minimum diversity, rating and yield, and limitations on loan size. These limitations may limit our ability to fund certain new originations with advances under the Facility, in which case we will seek to fund originations using new debt or equity financings.

COMMITMENTS AND OFF-BALANCE SHEET ARRANGEMENTS

We are a party to financial instruments with off-balance sheet risk in the normal course of business in order to meet the needs of our portfolio companies. Such instruments include commitments to extend credit and may involve, in varying degrees, elements of credit risk in excess of amounts recognized on our balance sheet. Prior to extending such credit, we attempt to limit our credit risk by conducting extensive due diligence, obtaining collateral where necessary and negotiating appropriate financial covenants. As of June 30, 2007 and December 31, 2006, the Company had committed to make a total of approximately $4 million of investments in various revolving senior secured loans, of which approximately $684,000 was funded as of June 30, 2007 and no amount was funded as of December 31, 2006. As of June 30, 2007 and December 31, 2006, the Company had committed to make a total of approximately $952,000 of investments in a delayed draw senior secured loan.

We may make "first loss" guarantees in connection with loan warehouse arrangements for Katonah Debt Advisors CDO Funds. Such guarantees relate primarily to losses as a result of payment defaults by loans held in the warehouse and not to changes in the value of such loans. Loan warehouse arrangements are used to accumulate assets that will ultimately be collateralized with a CDO Fund. The amount of such guarantees generally approximate 1% of the planned CDO Fund value and generally correlate to our planned equity investment in the CDO Fund. In return for such guarantee, we receive net spread income from the underlying assets in the loan warehouse.

On February 7, 2007, the Company entered into an agreement with Bear, Stearns & Co. Inc. ("Bear Stearns") pursuant to which Bear Stearns will provide services relating to the formation of a CDO Fund, managed by Katonah Debt Advisors, to be named Briarcliff CLO I Ltd. ("Briarcliff"), which will generally invest in broadly syndicated corporate loans rated "BBB" to "B" and mezzanine securities of other corporate leveraged loan CDO funds (other than the CDO Funds managed by Katonah Debt Advisors) rated "BBB" or "BB", with a total fund size expected to be $400 million. As part of this engagement, Katonah Debt Advisors entered into a warehouse credit agreement, under which Bear Stearns will provide funding which will allow it to accumulate assets for Briarcliff. Pursuant to this warehouse credit agreement, the Company agreed to reimburse Bear Stearns for losses incurred on loans acquired for Briarcliff prior to the completion of the fund (a "First Loss Guarantee"). Upon completion of the fund, the Company's reimbursement obligation will be limited to losses incurred as a result of payment defaults on loans or that become rated "CCC" held in the warehouse and further limited based on a percentage of warehoused assets. In the event that the fund is not completed and closed, the reimbursement obligation will be limited to the aggregate difference between the purchase price of the warehoused collateral and the price at which such loan is sold. In return for providing this First Loss Guarantee, the Company will receive all interest and other non-principal distributions made with respect to the CDO's investments serving as collateral upon the closing of the securitization, less the financing costs of LIBOR plus 0.75%, reset daily. As of June 30, 2007 Katonah Debt Advisors had aggregated approximately $294 million of assets for Briarcliff, all of which were performing according to their contractual terms, and the Company does not expect to incur any losses on the assets acquired for Briarcliff.

On March 3, 2007, the Company entered into an agreement with Bear Stearns pursuant to which Bear Stearns will provide services relating to the formation of a CDO Fund, managed by Katonah Debt Advisors, to be named Katonah CLO XI Ltd. ("Katonah CLO XI") which will invest in broadly syndicated senior loans, second lien loans, and other credit instruments (excluding asset backed securities such as those secured by residential mortgages or other consumer borrowings) with a total fund size expected to be $400 million. As part of this engagement, Katonah Debt Advisors entered into a warehouse credit agreement, under which Bear Stearns will provide funding which will allow it to accumulate assets for Katonah CLO XI. Pursuant to this warehouse credit agreement, the Company agreed to reimburse Bear Stearns for losses incurred on loans acquired for Katonah CLO XI prior to the completion of the fund. Upon completion of the fund, the Company's reimbursement obligation will be limited to losses incurred as a result of payment defaults on loans or that become rated "CCC" held in the warehouse and further limited based on a percentage of warehoused assets. In the event that the fund is not completed and closed, the reimbursement obligation will be limited to the aggregate difference between the purchase price of the warehoused collateral and the price at which such loan is sold. In return for providing this First Loss Guarantee, the Company will receive all interest and other non-principal distributions made with respect to the CDO's investments serving as collateral upon closing of the securitization, less the financing costs of 0.75% plus LIBOR, reset daily. As of June 30, 2007 Katonah Debt Advisors had aggregated approximately $126 million of assets for Katonah CLO XI, all of which were performing according to their contractual terms, and the Company does not expect to incur any losses on the loans acquired for Katonah CLO XI.

On March 12, 2007, the Company entered into an agreement with Lehman Commercial Paper Inc. ("Lehman") pursuant to which Lehman will provide services relating to the formation of a CDO Fund, managed by Katonah Debt Advisors, to be named Ardsley CLO 2007-1 Ltd. ("Ardsley CLO 2007-1") which will invest in senior loans to middle market companies, broadly syndicated senior loans and other credit instruments (excluding asset backed securities such as those secured by residential mortgages or other consumer borrowings) of corporate issuers with a total fund size expected to be $300 million. As part of this engagement, Katonah Debt Advisors entered into a warehouse credit agreement, under which Lehman will provide funding which will allow it to accumulate assets for Ardsley CLO 2007-1. Pursuant to this warehouse credit agreement, the Company agreed to reimburse Lehman for losses incurred on loans acquired for Ardsley CLO 2007-1 prior to the completion of the fund. Upon completion of the fund, the Company's reimbursement obligation will be limited to losses incurred as a result of payment defaults on loans or that become rated "CCC" held in the warehouse and further limited based on a percentage of warehoused assets. In the event that the fund is not completed and closed, the reimbursement obligation will be limited to the aggregate difference between the purchase price of the warehoused collateral and the price at which such loan is sold. In return for providing this First Loss Guarantee, the Company will receive all interest and other non-principal distributions made with respect to the CDO's investments serving as collateral upon closing of the securitization, less the financing costs of 0.75% plus LIBOR, reset daily. As of June 30, 2007 Katonah Debt Advisors had aggregated approximately $63 million in loans for Ardsley CLO 2007-1, all of which were performing according to their contractual terms, and the Company does not expect to incur any losses on the loans acquired for Ardsley CLO 2007-1.

CRITICAL ACCOUNTING POLICIES

The financial statements are based on the selection and application of critical accounting policies, which require management to make significant estimates and assumptions. Critical accounting policies are those that are both important to the presentation of our financial condition and results of operations and require management's most difficult, complex, or subjective judgments. Our critical accounting policies are those applicable to the valuation of investments and certain revenue recognition matters as discussed below.

Valuation of Portfolio Investments

The most significant estimate inherent in the preparation of our financial statements is the valuation of investments and the related amounts of unrealized appreciation and depreciation of investments recorded.

As a BDC, we invest a substantial portion of our assets in illiquid securities including debt and equity securities of primarily privately-held companies. These securities will be valued and carried at fair value, as determined in good faith by our Board of Directors each quarter. We will determine fair value to be the amount for which an investment could be exchanged in an orderly disposition over a reasonable period of time between willing parties other than in a forced or liquidation sale. Our valuation policy is intended to provide a consistent basis for determining the fair value of the portfolio based on the nature of the security, the market for the security and other considerations including the financial performance and enterprise value of the portfolio company. Because of the inherent uncertainty of valuation, the Board of Directors' determined values may differ significantly from the values that would have been used had a ready market existed for the investments, and the differences could be material.

Our Board of Directors may consider other methods of valuation to determine the fair value of investments as appropriate in conformity with GAAP.

Interest Income

Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis to the extent that such amounts are expected to be collected. We generally place a loan on non-accrual status and cease recognizing interest income on such loan or security when a loan or security becomes 90 days or more past due or if we otherwise do not expect the debtor to be able to service its debt obligations. Non-accrual loans remain in such status until the borrower has demonstrated the ability and intent to pay contractual amounts due or such loans become current. At June 30, 2007 and December 31, 2006, no loans or debt securities were greater than 90 days past due or on non-accrual status.

Payment in Kind Interest

The Company may have loans in its portfolio that contain a payment-in-kind ("PIK") provision. PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain our RIC status, this non-cash source of income must be paid out to stockholders in the form of dividends, even though the Company has not yet collected the cash. For the three and six months ended June 30, 2007, the Company earned approximately $127,000 and $151,000 in PIK interest, respectively.

Fee Income

Fee income includes fees, if any, for due diligence, structuring, commitment and facility fees, and fees, if any, for transaction services and management services rendered by us to portfolio companies and other third parties. Commitment and facility fees are generally recognized as income over the life of the underlying loan, whereas due diligence, structuring, transaction service and management service fees are generally recognized as income when the services are rendered.

Management Compensation

We may, from time to time, issue stock options under our Equity Incentive Plan to officers and employees for services rendered to us. We will follow Statement of Financial Accounting Standards No. 123R (revised 2004), *Accounting for Stock-Based Compensation* , a method by which the fair value of options are determined and expensed. We are internally managed and therefore do not incur management fees payable to third parties.

Dividends

Dividends and distributions to common stockholders are recorded on the declaration date. The amount to be paid out as a dividend is determined by the Board of Directors each quarter and is generally based upon the earnings estimated by management for the period and fiscal year.

We have adopted a dividend reinvestment plan that provides for reinvestment of our distributions on behalf of our stockholders, unless a stockholder "opts out" of the plan to receive cash in lieu of having their cash dividends automatically reinvested in additional shares of our common stock.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our business activities contain elements of market risks. We consider our principal market risks to be fluctuations in interest rates and the valuations of our investment portfolio. Managing these risks is essential to our business. Accordingly, we have systems and procedures designed to identify and analyze our risks, to establish appropriate policies and thresholds and to continually monitor these risks and thresholds by means of administrative and information technology systems and other policies and processes.

Interest Rate Risk

Interest rate risk is defined as the sensitivity of our current and future earnings to interest rate volatility, variability of spread relationships, the difference in re-pricing intervals between our assets and liabilities and the effect that interest rates may have on our cash flows. Changes in the general level of interest rates can affect our net interest income, which is the difference between the interest income earned on interest earning assets and our interest expense incurred in connection with our interest bearing debt and liabilities. Changes in interest rates can also affect, among other things, our ability to acquire and originate loans and securities and the value of our investment portfolio.

Our investment income is affected by fluctuations in various interest rates, including LIBOR and prime rates. As of June 30, 2007, approximately 91% of our loans at fair value in our portfolio were at floating rates with a spread to an interest rate index such as LIBOR or the prime rate. We generally expect that future portfolio investments will predominately be floating rate investments. As of June 30, 2007, we had $100 million of borrowings outstanding at a floating rate tied to prevailing commercial paper rates plus a margin of 0.70%.

Because we plan on borrowing money to make investments, our net investment income is dependent upon the difference between the rate at which we borrow funds and the rate at which we invest the funds borrowed. Accordingly, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income. In periods of rising interest rates, our cost of funds would increase, which could reduce our net investment income if there is not a corresponding increase in interest income generated by floating rate assets in our investment portfolio.

We have analyzed the potential impact of changes in interest rates on interest income net of interest expense. Assuming that our balance sheet at June 30, 2007 were to remain constant and no actions were taken to alter the existing interest rate sensitivity, a hypothetical increase or decrease of a 1% change in interest rates would correspondingly affect net interest income proportionately by approximately 1% over a one-year period. Correspondingly, a hypothetical increase or decrease of a 1% change in interest rates would correspondingly affect net interest expense proportionately by approximately 1% over a one-year period. Because most of our investments at June 30, 2007 were floating rate with a spread to an index similar to our financing facility, we would not expect a significant impact on our net interest spread.

Although management believes that this measure is indicative of our sensitivity to interest rate changes, it does not adjust for potential changes in credit quality, size and composition of the assets on the balance sheet and other business developments that could affect a net change in assets resulting from operations or net income. Accordingly, no assurances can be given that actual results would not materially differ from the potential outcome simulated by this estimate.

We did not hold any derivative financial instruments for hedging purposes as of June 30, 2007. In connection with the Facility established on February 14, 2007, our special purpose subsidiary may be required under certain circumstances to enter into interest rate swap agreements or other interest rate hedging transactions.

Portfolio Valuation

We carry our investments at fair value, as determined in good faith by our Board of Directors. Investments for which market quotations are readily available are valued at such market quotations. Because there is not a readily available market value for some of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments, and the differences could be material. In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the valuations that are assigned. The types of factors that we may take into account in fair value pricing of our investments include, as relevant, the nature and realizable value of any collateral, third party valuations, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly-traded securities, recent sales of or offers to buy comparable companies, and other relevant factors.

Item 4T. ***Controls and Procedures***

Evaluation of Disclosure Controls and Procedures. The Company's management, under the supervision and with the participation of various members of management, including our Chief Executive Officer ("CEO") and our Chief Financial Officer ("CFO"), has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) of the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, our CEO and CFO have concluded that our current disclosure controls and procedures are effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting. The Company's management, under the supervision and with the participation of various members of management, including our CEO and our CFO, has evaluated any change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act). Management has concluded that there have been no changes in the Company's internal control over financial reporting identified in connection with this evaluation that occurred during the quarter ended June 30, 2007 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II. Other Information

Item 1. ***Legal Proceedings***

Neither we, nor any of our subsidiaries, are currently a party to any material legal proceedings, other than routine litigation and administrative proceedings arising in the ordinary course of business. Such proceedings are not expected to have a material adverse effect on the business, financial conditions, or results of our operations.

Item 1A. ***Risk Factors***

There were no material changes from the risk factors previously disclosed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

Item 2. ***Unregistered Sales of Equity Securities and Use of Proceeds***

None.

Item 3. ***Defaults Upon Senior Securities***

None.

Item 4. ***Submission of Matters to a Vote of Security Holders***

On June 8, 2007, we held our annual meeting of shareholders. The following two matters were submitted to a vote of the shareholders:

1. To elect two directors, each for a term of three years; and
2. To ratify the selection of Deloitte & Touche LLP as our independent registered public accountant.

The results of the shares voted with regard to each of these matters are as follows:

1. Election of Directors

Director	For	Withheld
C. Turney Stevens	17,147,740	91,873
Gary Cademartori	17,148,440	91,173

2. Ratification of appointment of Deloitte & Touche LLP

For	Against	Abstain	Broker Non-Votes
17,157,404	58,804	23,405	—

Item 5. ***Other Information***

None.

Item 6. ***Exhibits***

Exhibit Number	Description of Document
31.1*	Certification of Chief Executive Officer Pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

Exhibit 31.1

CERTIFICATION PURSUANT TO
RULE 13a-14(a) and 15d-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS AMENDED

I, Dayl W. Pearson, certify that:

1. I have reviewed this quarterly report on Form 10-Q for the quarter ended June 30, 2007 of Kohlberg Capital Corporation (the "registrant");

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 31.2

**CERTIFICATION PURSUANT TO
RULE 13a-14(a) and 15d-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS AMENDED**

I, Michael I. Wirth, certify that:

1. I have reviewed this quarterly report on Form 10-Q for the quarter ended June 30, 2007 of Kohlberg Capital Corporation (the “registrant”);

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant’s other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and

5. The registrant’s other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s Board of Directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.
